

Y6 Home Learning Monday 29th June – Friday 3rd July

Hello again to those of you learning from home! We really hope you're all well. We are all well here but still missing you all.

For now, we have just sent home maths, science and history but don't worry – the rest will follow soon!

Maths

Please work your way through the next three algebra lessons (6, 7 and 8). Then, as a bit of revision, please tackle the skills test at the end of the week.

History

We know Manchester as a whole is famous for a whole range of sporting, cultural and scientific endeavours but what about Sale itself? Well, let's find out in this lesson.

Science

Continue our foray into the world of light and shadows with this lesson on mirrors.
