

Aspen Websites for Parents

Dear parents,

I'm attaching some links to websites that might be useful to use at home. In the event of long term closure I will upload links to specific sites that link with themes we would be covering in class. So I may send a link to a powerpoint, video, website etc that you could all access so that we are going over the same subject area together.

BBC Teach youtube. There is a lot on here and perhaps at first it would be best used as a starting point to find out more about things that your child enjoys.

BBC teach ClassClips As above

<https://www.bbc.co.uk/programmes/articles/1vYCLNIGK2wdM8R9FqhVxhV/class-clips-primary>

Doodle Maths £5.99 per month. This site is recommended by quite a lot of parents who home school. I haven't used it myself. I will upload maths on a weekly basis if/when we are closed. So please don't feel obliged to subscribe to it.

<https://www.doodlemaths.com/#!>

Mystery Science

This site is a subscription site but has a free area of plans for parents during school closure. It seems to have lots of activities children would enjoy. I might use some of myself in some future science planning.

<https://mysteryscience.com/school-closure-planning>

Crash Course Kids; another Science site with lots of engaging videos.

<https://www.youtube.com/user/crashcoursekids>

Studio code org. A site we have used in class for computing and coding.
